### Ben Miller.

Another of Hondo's patriotic young  
sons has laid down his life on the altar  
of his country. One week ago yester-  
day evening news was conveyed to his  
relatives here that Ben Miller had  
fallen asleep at Hampton Roads, Vir-  
ginia, after some two weeks illness,  
his death being due to an attack of  
meningitis.

On the 17th day of April, 1917, de-  
ceased and ten others of the patriotic  
sons of Medina county, offered their  
services to their country in its hour of  
need, selecting the naval branch as the  
department of their endeavor. After  
a term of intensive training at the  
Great Lakes training camp he was as-  
signed to the U. S. ship Nereus and  
had seen a great deal of service.

Deceased was just verging on vigor-  
ous young manhood, being but 23 years  
old. He was of splendid physique—said  
to have been the best physical young  
man of the many hundreds that have  
rushed to the aid of their country in its  
hour of peril. When the news spread  
here that he was critically ill every  
one here confidently hoped that his  
physical strength would gain the mas-  
tery and he would be spared for fur-  
ther service to his country, but God  
willed otherwise, and he now sleeps  
with the thousands of other valiant  
young Americans who have given  
their lives that freedom shall still be  
vouchsafed to the peoples of the world.

We doubt if there is a county in the  
state, of equal population, that has  
given more soldiers to the govern-  
ment than has Medina. We're all proud  
of boys when we see them rushing  
into the armed service of their coun-  
try to uphold the honor and glory of  
the flag they love so truly; we all find  
it hard to restrain our tears when we  
see the flag, for which they gave their  
lives, draping their caskets.

Besides his mother, deceased is sur-  
vived by three sisters, Mrs. A. A.  
Rothe and Misses Hedwig and Annie  
Miller of Hondo; and three brothers,  
Messrs. O. H. Miller of Hondo, F. W.  
Miller of Kyle and Dan Miller, in the  
U. S. navy, now at San Francisco.

The body arrived on Wednesday even-  
ing's belated train, and the Odd Fel-  
lows, of which lodge the deceased was  
an honored member, took charge of  
the remains and escorted them to the  
cemetery and placed them in the breast  
of Mother Earth, and now all that is  
left of the once happy, cheery-faced  
young man who was a familiar figure  
on our streets is a sweet memory.

The bereaved family have the sym-  
pathy of all our people, but the conscious-  
ness that he died in the service of his  
country should be a balm to the poi-  
gnancy of their grief.

### Otto Graff.

Another victim of the Spanish In-  
fluenza is Otto Graff, who died after  
an illness of only five days of a se-  
vere attack of pneumonia, at the home  
of his parents, Mr. and Mrs. F. L.  
Graff in Hondo, on Sunday night,  
November 4, 1918.

Loving care, the best of nursing and  
medical attention could not save the  
physically strong young man from an  
untimely demise.

The funeral took place Monday after-  
noon at 4 o'clock in the new Cemetery  
here, Rev. Falkenberg officiating at the  
grave.

Pall bearers were Paul Richter, A.  
G. Holloway, Geo. Karm, Sid Carter,  
John Wilson and Robt. Weynand. A  
large concourse of relatives and friends  
followed the mortal remains of the  
deceased to their last resting place.

Otto Graff was born July 11, 1894,  
and was 24 years, 3 months and 4 days  
old at the time of his death.

Besides father and mother (nee Elisa  
Leinweber), deceased leaves 5 brothers  
Fritz, George, Louis (in the army),  
Ben and Robert and 3 sisters, Mrs. L.  
A. Mechler, Mrs. Willie Mussman and  
Miss Edna Graff.

### Remi Marquis.

Another Medina County pioneer and  
another one of the early settlers who  
was connected with the history of the  
county, was quietly laid to rest at the  
Quihi Cemetery last Monday, Nov. 4th.  
REMI MARQUIS died Nov. 3, 1918, of  
old age—he was 83 years and 4 days  
old at the time of his demise. As a  
widower, he leaves three sons and four  
daughters to mourn his death. (We  
hope to be able to give a more extended  
sketch of his life later.)

### A Little Too Previous.

When news was received here about  
1:00 p. m. Wednesday that an armistice  
had been signed and that the world  
war had suddenly come to an end, Hondo  
went "hog wild" (with apologies to a  
Texas statesman, now out of a job, for  
the expression). Whistles were blown,  
church bells rung, fire-works set off,  
and every other means of adding to  
the din was employed. The students  
of the schools "revolted," comman-  
deered several automobiles, decorated  
them and with every conceivable size  
of flags paraded the streets shouting,  
singing songs and discharging fire  
arms. After keeping this up for an  
hour or more some one somewhat  
dampened the enthusiasm of the cele-  
brators by intimating that the news  
was not authentic, and the racket  
gradually died down. Later develop-  
ments proved that our celebration was  
a little bit too previous and that the  
German armistice commissioners had  
not at that hour received the terms  
from the allied commanders.

Hondo, however, was in good com-  
pany for New York, Chicago and other  
great cities of the north also went  
"h. w." even to a greater extent than  
had Hondo.

Hondo was just a little too previous,  
that's all, for it's our candid opinion  
that before another Anvil Herald goes  
to press the white dove of peace will  
again hover over the world. Then,  
while our pokey neighbors are going  
"h. w." over the event Hondo can re-  
main calm—she having already had  
her inning.

lived in San Antonio for the last 18  
months. The funeral was held at 9  
o'clock Monday morning from the  
chapel of the Riebe Undertaking Com-  
pany. Interment was made in the St.

### From the Boys "Over There."

SOMEWHERE WEST FRONT.  
Oct. 16, 1918.

Miss Estella Berry.

Dear Sister:—I received your letter  
today of Sept. 5th., was certainly glad  
to hear from you all.

Estella, did mama get that little sou-  
venir I sent her from Camp Upton? Tell  
mama not to send me anything for I  
may not get it, things get mixed up so  
bad over here.

I would like to see Meliff Lipfold, he  
is not very far from here but we don't  
have any chance to see each other.  
What's his address? I think he's right  
close to us. George Schuehle is 5 kilo-  
meters from here is what a boy told  
me.

We have lots of motor cycles to re-  
pair here; they get wrecked so easy.  
A new order has been given. If a  
driver gets a wreck he will be sent  
to the front line trenches for punish-  
ment.

It looked like for a while that the  
kaiser wanted peace, but we will make  
him like it before long.

I've had only one letter from Maggie  
since I left the States. It takes the  
mail a long time to get over here but  
it will come more direct now as we are  
stationed now.

Tell Pearl and Raymond I will write  
them soon. I haven't much chance to  
write now as we are a long ways from  
Y. M. C. A., and writing paper is sure  
scarce over here.

Well, write again when you can, for  
I am always looking for a letter from  
home. You all write once a week any  
way and I will do the same.

Pvt. J. T. BERRY.

A similar letter was received by  
Mrs. J. H. Berry here of the same  
date.

SOMEWHERE IN FRANCE,  
Oct. 17, 1918.

Mr. W. F. Neuman.

Dear Brother:—Will write you a few  
lines today while I haven't got much to  
do. I got to France all right. Am a  
little sick but it doesn't amount to  
anything. I wrote you a short letter  
while I was on the ship. Maybe you  
have it by now. How is everything at  
home?

I like it here so far, only it is much  
colder here than in America. It also  
rains a whole lot more here than in  
Texas. Everything looks nice and green  
here. The ground is rolling where  
I am now, the roads are going up-hill  
and down-hill. Our officers are good  
to us, so far I haven't seen any of the  
rest of the boys since I left Georgia.  
I guess they are somewhere scattered  
around here.

I can't understand one word of  
French, but some French people can  
speak some English. I think I can  
learn a little French before I come  
home again, and if I don't come back  
you all will know what to do.

You hardly see wagons with four  
wheels to them. They all have only  
two wheels and a big horse hitched to  
them. I haven't seen any mules since  
I am here, in a camp near the coast.  
We expect to be removed soon. Etc.  
Write often and send me the Anvil  
Herald some times. With lots of love  
and best wishes to you all, from  
T. J. NEUMAN,  
121 Inf. Co. M, Amer. Exp. Forces.

Louis Geuea writes from France un-  
der the date of Oct. 1st, that it is  
pretty cold over there, soldiers wear-  
ing their overcoats. He also says that  
he met Rolie Schuehle, who came from  
the battle front for a rest and general  
wash day. —Louis Geuea wrote another  
letter, which arrived yesterday, with  
his Christmas Package Coupon.

Relatives of Alfred Schulte also have  
received a letter of him from France.  
The sad news is circulated here that  
Ernest Weynand, son of Joe Weynand,  
died in France.

About one month ago this paper mentioned the name of Florentino Morales as being among the wounded in France. Tuesday's Express carried his name among those killed in action. We are not certain whether he recovered from his wound and returned to his company and was killed in a subsequent action or whether he succumbed to the wound first mentioned.

After a couple of weeks recess the district court reconvened Wednesday. The purpose of the court in reconvening was to try the case of The State vs. Anulfo Flores, charged with rape, but owing to the illness of defendant the case was continued until next term. Defendant's bond, however, was reduced from \$700 to \$500. In the case of Monroe Bracken vs. Ida Bracken, divorce, a divorce was granted. The court then adjourned until next term.

Uncle Charlie Stone has been notified of the approaching 47th re-union of that great old fighting unit of the Confederate army, Terry's Texas Rangers, which will be held at Austin on the 19th and 20th of November. There is only a corporal's guard of these old soldiers left. Father Time is making rapid inroads in their ranks, and in a few short years they will all have joined the silent majority beyond the grave. The people delight to honor these old veterans of past wars, and of course the people of Austin will give them the time of their lives.

Mrs. Frank Cockrell is one of the latest "flu" victims. She undoubtedly contracted the disease from some of those she attended, having engaged actively in nursing since the advent of the malady here. It is hoped that the attack will prove of mild type. Mr. J. F. Dilworth came over from Lacoste Thursday night suffering from an attack of "flu." Charlie Hoover and Jack Droitcourt have both been tussling with the malady but both are convalescing. Another case has developed in the Graff family, but none of these late cases seem to be of a very virulent type.

### Funeral Sermon of Amos Rothe.

The following is a translation of the sermons held at the funeral (Oct. 26th) and at the memorial service in the Lutheran Church (Nov. 3rd), held by Rev. A. Falkenberg for Amos Rothe, who died October 26, 1918, of Spanish influenza.

Dear mourning congregation and especially you, dear parents of this deceased son:—

Is there such pain as the pain which struck me? With such lamentation you stand to day before the grave of your beloved son, Amos. He was your only son, equipped with precious gifts, diligent, obedient, reputable, the pride and joy of his family.

With youthful eagerness he wanted to reach his aim—to serve his country as a trained soldier. This noble endeavor honors the deceased young man, who followed the impulse of his heart as thousands and thousands of others of the same age have done.

In the endeavor to be admitted to the training camp and to serve his country as a soldier, he was attacked by Spanish Influenza, which caused his untimely death and which epidemic goes through our country, demanding the life of thousands in the flower of youth. As Christians we submit and bow to such visitation and we confess: Nothing can befall me; what God resolves upon me is to my salvation, therefore I bow to His will while a pilgrim on earth. In such hours of deepest affliction only devoutness can give us strength and the consolation our hearts seek. Everything comes from God, happiness and distress, life and death, poverty and wealth. You mourning parents, and you, sister of the deceased, must be convinced that God does not want to afflict you by the taking home of your beloved one; not at all. In all his actions he manifests thoughts of peace. He wants to bring us nearer to heaven only. We shall seek things of eternal and everlasting value, seek Jesus and his light—anything else is useless. "I have loved you forever, therefore I have taken you unto me. Our path goes heavenward; we are only guests on earth until we arrive, through the desert, in Canaan. Here is our pilgrimage, our Fatherland is above." The good Father of everything living has taken your son, whom he loves, away from the world of temptation and sin to his heavenly kingdom. You cannot see him here any more, but he is in good care, with the Father of the light.

The Saviour of sinners, Jesus Christ, wishes to draw you also to Him by His grace. He will make you anxious for divine mercy, so that you may strive for eternal blessings. May He inculcate this deep into your hearts: "No thoughts of affliction, but thoughts of peace and salvation the Father in heaven has for you."

May He console you and soothe your hearts, have His word to strongly act upon and strengthen you in the belief in the Son of God. Who will give you that which you are awaiting—eternal life.

### United War Work Campaign.

During the week beginning November 11 the American people are asked to contribute not less than \$170,500,000 for the benefit of our soldier boys. This fund will be distributed among the Young Men's Christian Association, the Young Women's Christian Association, the National Catholic War Council (Knights of Columbus), the Jewish Welfare Board, the Salvation Army, the War Camp Community Service and the American Library Association. These seven agencies have been recognized by the Government, and the United War Work Campaign has been instituted at the suggestion of President Wilson.

The purpose of this campaign is to secure funds with which to finance the work that these societies are doing for the soldier boys. They provide entertainment for the boys, look after their moral and spiritual welfare, furnish reading matter, stationery and rest rooms, and in numerous other ways give a touch of home life to the homesick boys in camps and cantonments, both here and overseas.

The County Council of Defense is in charge of the campaign in Medina County, and in order to make it thorough and effective, has again called upon all school trustees to look after the work in their respective districts. From November 11 to 18, therefore, the people will be asked to contribute liberally to this good cause. A thorough canvass must be made, either by the trustees, or by committees appointed by them. In districts where community councils have been organized, the war work committee should do the work under the supervision of the trustees.

The amounts contributed are not loaned, but donated through the Government to these seven societies. J. M. Finger, President of the First National Bank, Hondo, Texas, has been appointed treasurer; all contributions must be forwarded to him not later than November 19.

At this writing the quota for Medina County is not known, but we anticipate that it will be not less than \$20,000. Let us make a united effort to go over the top as usual.

L. J. BRUCKS, Secretary.

### Tuesday's Election.

Tuesday's election was about the quietest affair of the kind ever held here. All the old county officers were re-elected: R. J. Noonan, county judge; S. A. Jungman, county clerk; L. E. Heath, tax collector; and J. J. Droitcourt, county treasurer; all without opposition. In the race for tax collector Joe Ney, the present incumbent, defeated O. H. Miller by approximately 150 majority, while Sheriff Bader was re-elected over J. W. Crutchfield of Devine. In the race for county school superintendent W. N. Saathoff was re-elected, defeating A. W. Myres of Biry. In the race for county commissioner, Precinct No. 1, H. F. Buss defeated B. H. Brucks, the present incumbent; Judge A. M. Lamm was re-elected justice of the peace without opposition, while Henry Moore was again elected constable, defeating Ed. Burnett. Emil Garteiser was elected public weigher for Precinct No. 1. Indications up to Thursday evening were that both the amendments were defeated, but three boxes were still absent, and until they are brought in their fate will remain in doubt.

### Fourth Liberty Loan.

Complete reports have not yet been received of the amount of subscriptions to the Fourth Liberty Loan, but unofficial returns indicate that Medina County over-subscribed its quota by about \$20,000. This is certainly a splendid showing, considering the fact that we are in the drouth-stricken belt. Sixteen school districts oversubscribed their quota, as follows: Hondo, Devine, D'Hanis, Castroville, Riomedina, Lacoste, Quihi, Fly, Deer Creek, Maverick, Seco, Burrell, Dunlavy, Yellow Banks, Langfeld and Vandenberg. The honor flags for these districts have been received by Judge Noonan and are being distributed. It is possible that other districts also went over the top, but have not yet reported officially. If so, they should report to Judge Noonan and secure their flags.

### Regulation of Explosives.

San Antonio, Texas, Oct. 5, 1918.

Mr. A. M. Lamm, Hondo, Texas.

Dear Sir:

Replying to your letter of October 4th, regarding license to handle fireworks:

If the dealer has a license to handle explosives or explosives ingredients, he does not have to take out another license for fireworks. One license is good for all purchases.

If he has no license, then he must take out a Vendor's License, to permit him to handle fireworks.

Ordinary fireworks (except roman candles over 20 balls, Rockets over 3 pounds, firecrackers over 5 inches by 2 inches) may be sold to the retail trade without requiring the purchaser to produce a license. The larger kinds require a license.

If you do not get the necessary supplies, write the Bureau of Mines, Washington, about them again.

Yours very truly,

C. B. WATERS, U. S. Explosives Inspector.

### Red Cross Notice.

Notice is hereby given that the Annual Chapter Election will be held on Wednesday, November 20th, 1918, unless advised to the contrary. We urge a large attendance at this meeting.

To the good people of Precinct No. 1 who by their votes have again honored me with the office of Constable of this Precinct, I wish to return my sincere thanks. ## GOVERNMENT W.S.S. PLEDGES ARE DUE; PAY BY END OF WEEK

All War Savings Stamp Pledges should be redeemed by the end of this week. Maybe you were unable to completely liquidate your pledge Thursday, Oct. 24, the first day of the payment call, but be sure the matter is attended to before this week ends.

Every pledger in the county is called upon to discharge his obligation to the Government.

Pledges for November and December, although they do not mature before this week ends, should be paid at this time.

Make your arrangements at the banks, postoffice or any of the sales agencies where War Savings Stamps can be obtained.

Complete tabulations showing the exact amount which has been invested in War Savings Stamps in response to the call made Thursday, Oct. 24, for complete liquidation of pledges are not yet available, but the total has been increasing materially every day.

All pledges, including those for November and December, should receive attention not later than Saturday, the end of this week.

By that time every pledger should have made the necessary arrangements incident to meetings this call for the complete liquidation of his obligation to the Government.

In speaking of the payment now of November and December pledges, Louis Lipsitz, who is director of War Savings in Texas for the Federal Government, said:

"In view of the pressing need of money to carry out successfully the enormous war movements in France now, I am quite certain that every loyal Texan will gladly take up the November and December portions of his pledge at the same time he liquidates that portion of his pledge due and payable on or before the end of this week. Even though the complete payment of his pledge to include the November and December amounts may cramp him a bit financially or call for self-sacrifice, I am confident that every Texan will see that his whole pledge for the year is entirely paid before this week ends."

The cost of a War Savings Stamp will be \$4.21 until the end of this week. This figure multiplied by the remaining number of unbought stamps listed on your pledge card is the complete amount of your pledge which is now due.

## INFLUENZA WORSE THAN HUN BULLETS.

Claiming More Victims Than Battle Fronts of Europe—Disease Can Be Avoided.

According to carefully compiled statistics it is an indisputable fact that the Spanish Influenza Epidemic which is now sweeping all parts of the country is daily claiming far more victims than German bullets on the battle fronts of Europe. Although civil and military authorities have succeeded in checking the disease in some localities, it is growing worse in others and continues to spread at an alarming rate. That the disease can be avoided there is no longer any doubt. According to leading authorities the powers of resistance of the human system can be so perfected that it can throw off almost any infection, not even excepting Spanish Influenza, which is one of the most contagious diseases known.

It is persons who are suffering from lowered vitality, who are weak and rundown and who have not the strength to throw it off who are the earliest victims. Persons who have bad colds, who are suffering from catarrhal troubles, or inflammation of the mucous membranes are especially susceptible, as the inflamed mucous membrane linings of the nose and throat are an open door to the germs. This condition is almost always accompanied by a weakened condition of the system.

If you are suffering from any of these symptoms, nothing on earth will build you up and strengthen you like Tanlac, which contains the most powerful tonic properties known to science.

This statement is easily proven by the fact that Tanlac is now having the greatest sale of any system tonic in the history of medicine. In less than four years time over Ten Million Bottles have been sold and the demand is constantly increasing. Thousands are using it daily for the above troubles with the most astonishing and gratifying results.

Tanlac increases your strength and weight and creates a good, healthy appetite for nourishing food. It keeps you physically fit and helps every organ of the body perform its proper function in the natural way.

In connection with the Tanlac Treatment be sure and keep the bowels open by taking Tanlac Laxative Tablets, samples of which are included in every bottle.

Tanlac is sold in Hondo by W. H. Windrow.

Origin of Dover's Powder.  
"Dover's powder," an old-fashioned remedy still to be found at most druggists, is named after Captain Dover, a worthy of the seventeenth century. Captain Dover's other claim to fame is that he rescued Alexander Selkirk, the castaway of the island of Juan Fernandez, and thus was instrumental in giving "Robinson Crusoe" to the world. Captain Dover practiced medicine in an independent way—chiefly on his own men—and in this way came to concoct the powder which bears his name.

Regulate the bowels when they fail to move properly. HERBINE is an admirable bowel regulator. It helps the liver and stomach and restores a fine feeling of strength and buoyancy. Sold by W. H. Windrow.

## HEALTH TALK

SPANISH INFLUENZA OR GRIP

BY DR. LEE H. SMITH.

An old enemy is with us again, and whether we fight a German or a germ, we must put up a good fight, and not be afraid. The influenza runs a very brief course when the patient is careful, and if we keep the system in good condition and throw off the poisons which tend to accumulate within our bodies, we can escape the disease. Remember these three C's—a clean mouth, a clean skin, and clean bowels. To carry off poisons from the system and keep the bowels loose, daily doses of a pleasant laxative should be taken. Such a one is made of May-apple, leaves of aloe, root of jalap, and called Dr. Pierce's Pleasant Pellets. Hot lemonade should be used freely if attacked by a cold, and the patient should be put to bed after a hot mustard foot-bath.

To prevent the attack of bronchitis or pneumonia and to control the pain, Anuric tablets should be obtained at the drug store, and one given every two hours, with lemonade. The Anuric tablets were first discovered by Dr. Pierce, and, as they flush the bladder and cleanse the kidneys, they carry away much of the poisons and the uric acid. It is important that broths, milk, buttermilk, ice-cream and simple diet be given regularly to strengthen the system and increase the vital resistance. The fever is diminished by the use of the Anuric tablets, but in addition, the forehead, arms and hands may be bathed with water (tepid) in which a tablespoonful of salaratus has been dissolved in a quart. After an attack of grip or pneumonia to build up and strengthen the system, obtain at the drug store a good iron tonic, called "Ironite" Tablets, or that well known herbal tonic, Dr. Pierce's Golden Medical Discovery.

Mr. and Mrs. Joe Ney and daughter, Miss Della, spent Sunday here with Mr. and Mrs. Henry Steinle and Mrs. Theresa Ney.

### Greatly Benefited by Chamberlain's Tablets.

"I am thankful for the good I have received by using Chamberlain's Tablets. About two years ago when I began taking them I was suffering a great deal from distress after eating, and from headache and a tired, languid feeling due to indigestion and a torpid liver. Chamberlain's Tablets corrected these disorders in a short time, and since taking two bottles of them my health has been good," writes Mrs. M. P. Harwood, Auburn, N. Y.

### Sabinal Sentinel Siftings.

Mrs. T. E. Wyatt and Miss Sarah went to D'Hanis Saturday on a visit.

Mrs. I. C. Honegger, who has been visiting her parents, Mr. and Mrs. J. W. Davenport, for several weeks, left Saturday for Dallas to meet her husband. She has just recovered from the influenza.

Miss Jo Allen who has been teaching school near Hondo, is home for a week or two on account of closing for the "Flu".

Mr. Val Vollmer and family went to Castroville Sunday to look after his pecan crop. He says there is a good crop this year.

### Sleep and Rest.

One of the most common causes of insomnia and restlessness is indigestion. Take one of Chamberlain's Tablets immediately after supper and see if you do not rest better and sleep better. They only cost a quarter.

### LARGE CROWD HEARD SPEECH.

Question of Fixing Price of Cotton Discussed at Rice.

Rice, Texas, Sept. 23.—A number of farmers and business men listened to an hour or more here Saturday afternoon to Fletcher Davis, Field Agent of the State Department of Agriculture, lecture on "Rural Organization and Co-operation." The speaker outlined plans whereby farmers can co-operate, pool their cotton seed, market them in bulk through an authorized agent and save the bulk of the dealer's three dollars profit for themselves.

He also went into the cotton situation, showing why cotton should bring 35 cents per pound or better. "A farmer of this town," said the speaker, "told me that he sold cotton for 4 cents per pound and corn for 13 cents per bushel in Waxahachie in 1894. On that basis 3 1/4 pounds of cotton would exchange for a bushel of corn. Many Texas farmers paid two dollars per bushel for the corn they made the present crop on. Could they pay for it on the basis of 3 1/4 pounds of cotton for a bushel of corn they would get at the rate of 61 27-32 cents per pound for their cotton. At the rate of 35 cents a pound for cotton it would take 5 2/3 pounds to pay for a bushel of corn, or almost twice what it took in 1894." On this basis, declared the speaker, "cotton at 35 cents a pound today is the cheapest I ever knew it to be."

At the conclusion of the lecture a movement was started to send a petition to Congressman Rufus Hardy to use his utmost endeavors, if a price is fixed by the Government, to have it fixed at not less than 35 cents per pound—Corsicana Daily Sun.

### Chamberlain's Cough Remedy.

Do not imagine that because other cough medicines failed to give you relief that it will be the same with Chamberlain's Cough Remedy. Bear in mind that from a small beginning this remedy has gained a world wide reputation and immense sale. A medicine must have exceptional merit to win esteem wherever it becomes known.

### Letter from a Sailor Boy.

Mr. and Mrs. Henry Vonlie. Algiers, La., Oct., 1918. Dear uncle and aunt:

I got your most welcome letter yesterday and was indeed glad to hear from you all again. I am well and hope the same of you all. Well, I am out of training now and am at Algiers, waiting to be shipped away on some ship in a few days. I think I will go to Pensacola, Florida, for a few days first and then on a ship. Almost half of the boys here are in the hospital, with the Spanish Influenza, but I have been lucky enough to keep away from it until now. If Texas had half the rain this place gets, then the farmers would be all right. I am going to send you one of my pictures to-morrow, so you can at least see what I look like, since I joined the navy. There surely are lots of mosquitoes in this town; we can hardly sleep at night on account of them. I am now a second class seaman and will be first class as soon as I make a short trip on the ocean. I expect to be home and eat Xmas dinner with my home folks and you all, too. Well as news is scarce, I will close for this time, with love and best regards to you all, I remain, your nephew,

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free. F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

## Thanks to PERUNA

Mrs. Kate Marquis, Middleburg, Logan Co., Ohio, writes as follows:

"I have used Peruna with success. It has cured me of catarrh of the head and throat. It is the best medicine for catarrh that I have ever used. I am completely cured. Thanks to Peruna."

Mrs. Marquis is but one of many thousands who know the value of Peruna for that catarrhal condition of the membranes responsible for many of the human ills.

## Calomel Users! Listen To Me!

### I Guarantee Dodson's Liver Tonic

Your druggist gives back your money if it doesn't liven your liver and bowels and straighten you up without making you sick.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tonic—a perfect substitute for calomel. It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate. Children and grown folks can take Dodson's Liver Tonic, because it is perfectly harmless. Calomel is a dangerous drug. It is mercury and attacks your blood. Take a dose of nasty calomel and you will feel weak, sick, nauseated tomorrow. Don't let it do your work. Take a spoonful of Dodson's Liver Tonic instead. You will wake up feeling great, more biliousness, constipation, dizziness, headache, coated tongue, sour stomach. Your druggist says you don't find Dodson's Liver Tonic acts better than horrible calomel. Your money is waiting for you.

## INDIGESTION

If you are ever troubled with indigestion, Chamberlain's Tablets will do you good. They strengthen the stomach and enable it to perform its functions naturally. There are hundreds of people who have been restored to health and happiness by the use of Chamberlain's Tablets. When you feel dull and languid after eating you may know that your digestion is faulty, unless you have eaten more than you should. Belching, sour stomach, bloating are symptoms of indigestion and are relieved by taking Chamberlain's Tablets as directed. Indigestion is usually accompanied by constipation and is aggravated by it. Chamberlain's Tablets cause a gentle movement of the bowels, relieving the stipated condition. Chamberlain's Tablets are also most excellent for flatulency. Sold everywhere at 25c.

What Would You Do? In case of a burn or scald what would you do to relieve the pain? Such injuries are liable to occur in any family and every one should be prepared for them. Chamberlain's Salve applied on a soft cloth will relieve the pain almost instantly, and unless the injury is a very severe one, will cause the parts to heal without leaving a scar.

About Croup. If your children are subject to croup, or if you have reason to fear their being attacked by that disease, you should procure a bottle of Chamberlain's Cough Remedy and study the directions for use, so that in case of an attack you will know exactly what course to pursue. This is a favorite and very successful remedy for croup, and it is important that you observe the directions carefully.

**Notice to Farmers.**

Hog-killing time is approaching and soon the farmers will begin calling on the merchants for salt petre to use in curing their meat.

Salt petre (Potassium Nitrate) is used extensively in the manufacture of explosives and is covered by the Federal Explosives Act of Oct. 6, 1917, which provides that certain explosives ingredients will not be sold in quantities of an ounce or more unless the purchaser produces a license. Quantities less than an ounce, however, may be purchased without a license.

Those desiring to buy salt petre to use in curing meat can obtain it in sufficient quantity to meet their require-ments by taking out an explosives license, the cost of which is only 25 cents, Mr. A. M. Lamm of Hondo, Medina County, Texas, is the local Ex-plosives Licensing Agent, to whom they should apply for the necessary license.

Merchants should call attention of their customers to this matter, so they may not be caught unprepared.

This law also covers all kinds of ex-plosives and explosive ingredients, and any and all violations of the Fed-eral Explosives Law should be reported to me promptly.

### DON'T EXPERIMENT.

You Will Make No Mistake if You Follow This Advice.

Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, it's time to act and no time to experiment. These are frequently symptoms of kidney trouble, and a remedy which is recommended for the kidneys should be taken in time.

Doan's Kidney Pills are a good remedy to use. It has acted effectively in many cases in this vicinity.

Can Hondo residents demand further proof of merit than the following recom-mendation?

Floyd Trim, Box 24, Bigwells, Tex., says: "I suffered from soreness in my back just over my kidneys and at times lameness set in. Different remedies were suggested to me and I tried them, but no benefit followed. I had often read statements given by people who had used Doan's Kidney Pills with ben-efit and I was finally led to take them. The first box gave me so much relief that I continued to use them until cured."

Price 60c, at all dealers. Don't sim-ply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Trim had. Foster-Milburn Co., Mfrs., Buf-falo, N. Y.

### Lieutenant Wiemers Honored.

First Lieutenant Wesley J. C. Wiem-ers, M. D. C., graduate of the medical university of Galveston, has been cited by the French for bravery while under fire. He is a son of Rev. W. D. Wiemers of the Bencke Memorial Me-thodist Episcopal church, and is at-tached to ambulance company No. 3, first division. And incidentally, this entire division has been cited for its work by the French.

Lieutenant Wiemers was the first man in his company to be cited for bravery. What decoration he received was not mentioned in the letter. The citation shows that Lieut. Wiemers "showed extra devotion to duty and coolness and bravery under a heavy bombardment by the enemy. He pre-vented much suffering among our troops, and by his fine example aided the morale of the men under him. He was cited after a rather heavy engage-ment during the recent offensive by the French and Americans. The letter to his father was dated August 18, 1918.

After completing his studies at the medical university at Galveston and serving an internship at the John Sealy hospital. Lieutenant Wiemers donned the shoulder bars and uniform at Gal-veston on August 7, 1917. Just one year after this he was decorated for his work of alleviating suffering under fire. He arrived in France on Decem-ber 29, 1917, and, letters to his father show that most of his time has been spent in and around the front lines.

He formerly resided at Plehville, Mason county, and attended South-west-ern University two years before taking up the study of medicine.

Telling of the work of the medical men in action the lieutenant said that in attending the wounded all thought of self is lost, and it is not until after it is over that the dangers passed through in aiding the wounded come to mind. He said it was really a surprise when the first sergeant of his company congratulated him on being cited for bravery.

## HOW THE S. A. SERVES THE BOYS

MOTHERS AND SISTERS PROXY IN BRINGING HOME TO THE FIGHTING FRONT.

Doughnuts and coffe will remain always as the popular idea of what the work of the Salvation Army abroad is, but its field of endeavor is far more extended and the fol-lowing outlines will present a few other phases not so generally known:

### Cash Pay Checks and Loan Money To the Boys

The Salvation Army workers cash the boys' pay checks without ques-tion and during April in a certain division the workers sent home over \$20,000 for the soldiers. They also take care of the lads' keepsakes when the order comes to go "over the top" and in every hutment are barrels or boxes of those intimate treasures the lads want sent home, should they be compelled to make the "great sacrifice" and "go west."

### Lassies Nurse the Wounded

These sweet and pure girls go from hospital to hospital and from ward to ward talking to the boys, always carrying them fruit and can-dy and filling any request that a wounded soldier may make, no mat-ter how extraordinary it may seem. They jot down in a note book a memo of any article desired and that very day make every effort to get it. Hours have been spent try-ing to buy a particular brand of tooth paste for a lad whose nerves were torn to shreds by shell shock. In fact they seek to give the same wondrous service that the mothers of these boys would give if they were over in France.

### Mend Clothes, Darn Socks, Knit and Sew

If a boy's uniform has become tat-tered and torn, if his socks are full of holes and he can't get a new pair immediately, if his shirt has rips and his trousers rents he can al-ways get first class tailoring done at a Salvation Army hutment. The's emergency work and the boys surely do appreciate it.

Meetings in Hutments—All Welcome. When the boys are resting in the rear lines the doors of the hutments are open to all and meetings are held that attract crowded houses. Old songs and hymns are sung, a religious talk is given and prayers are said. There is real religion in the army overseas and the boys realize that they can get very close to the Savior in the hospitable halls of the Salvation Army. All gatherings are non-sectarian and there is no at-tempt made to force attendance.

### Ambulance Work Develops

When the Salvation Army first reached France there was tremen-dous need for ambulances, the num-ber in operation being unable to transfer the wounded to hospitals and hospital ships. An ambulance corps was outfitted, equipped, man-ned and placed under the control of the Red Cross. Fifty-seven of these ambulances are now in operation and hundreds of thousands of wound-ed boys have been carried off the battlefield since the beginning of the war. The Salvation Army Ambu-lance unit was declared by the head of the British Red Cross to be among the most efficient in the ser-vice.

### Army Chaplains of the Salvation Army

General Pershing believes that the morals of his men are of the great-est importance and has appointed a larger and more effective corps of chaplains than any other command-ing officer in history. One of the most popular of these ministers of God is Major John E. Atkins, as-signed to the battalion of which Ar-chie Roosevelt is Lieutenant-Colonel.

## "KIDS' JUDGE" BRINGS WORD FROM THE BOYS

JUDGE BEN LINDSEY PICTURES SALVATION ARMY WAR SERVICE IN FRANCE.

## BOYS PROFANELY EARNEST

"When You See What These Ladies Are Doing, How the Hell Can a Kid Keep from Being Good?"

BY JUDGE BEN LINDSEY.

A good expression for American enthusiasm is "I am crazy about—this, that or the other thing that excites our admiration." Well, "I am crazy about the Salvation Army"—the Salvation Army as I saw it and mingled with it and the doughboys in the trenches. And when I happened to be passing through Chicago today and saw an appeal in The Tribune for the Salvation Army I remembered what our boys so often shouted out to me as I passed them in the trenches and back of the lines. "Judge, when you get back home tell the folks not to forget the Salvation Army. They are the real thing."

Has Eaten Their Doughnuts.

And I know they are the real thing. I have shared with the boys the doughnuts and chocolate and coffee that seemed to be so much better than any other doughnuts or coffee or chocolate I ever tasted before. And when it seemed so wonderful to me after just a mild sort of experience down a shell swept road, through the damp and cold of a French winter day, what must it be to those boys after trench raids or red-hot scraps down rain soaked trenches or under the wet mists of No Man's land?

How well I remember after the "Battle of Sheprey," as our boys called it, following with one of them an exciting chase around dead man's curve down from the heights of Beaumont, to draw up breathlessly in a shell torn village, to be welcomed by "de gang," as it might seem at home, with the wild joyful acclaim, "Come this way, Judge, the old Salvation Army is sticking with us like a brother—sinks and chocolate, coffee and all."

Visited Them in Cellar.

And down around the broken buildings, with shells whizzing overhead, I was rushed by a group of cheery doughboys to meet Miss So and So, and Miss So and So (their names somewhere in my note book), down an old cellar, cleared of debris.

Over the cheeriest fire I ever saw, boiling in good American lard, were the finest lot of fried cakes I ever put in my mouth. In America two of them—however good—would have put me out of business—but two, three, four, and five only served to whet my appetite, to the delight of one of the boys—who was just a good natured little rascal in my court seven years before. And if all this for a sedentary judge, what must it have meant to those boys? Do you wonder they love the Salvation Army?

Listen to some of the stories they tell me. "You see, Judge, the good old Salvation Army is the real thing. They don't put on no airs—there ain't no flubdub about 'em and you don't see their mugs in the fancy magazines much. Why, you would never see one of them in Paris around the hotels. Good Lord, you'd never know they existed, Judge, unless you came right up here as close to the front lines as the colonel will let you."

"Why, Judge," said an enthusiastic archer—yes, he seemed just that, so boyish in his enthusiasm—"after the battle yesterday we couldn't get those women out of the village till they'd seen every fellow had at least a dozen fried cakes and all the coffee or chocolate he could pile in. We just had to drag 'em out, for the boys love 'em—we weren't goin' to take no chances. Not much, for our Salvation ladies."

Boys Help the Workers.

And there in the old cellars the boys crowded around helping the lassies with their work—one preparing a gross half barrel like a tin for the roasting fire, another sneaking out under shell fire bringing in the wood, as he never did for mother back home in all his life, so joyful at the task, eyes beaming with anticipation, as the fried cakes crackled and sizzled with each new painful pitted into the boiling grease. I felt like a kid myself, and no more than those boys, can I ever forget that cheery fireside beyond shell torn Seicheprey, down in that old cellar as the sparks flew up, no brighter than those boys' eyes as they seemed glued to the sizzling pots, when not munching doughnuts and gulping down their hot coffee as they never did before. O, it was great.

"And say, Judge," chirped a ruddy faced, stomach-joyed kid, "these guys don't preach to us, neither. They just feed us up—that's what they do. And when you see what those ladies are doing, how the hell can a kid keep from being good?" That's just a faint glimpse of our boys before the peaceful, lovely firelights of the Salvation Army in France.

## COLD LEMONADE FOR THE WOUNDED

MANY LIVES SAVED BECAUSE SALVATION ARMY FURNISHED COOL DRINKS TO SOLDIERS.

## THEIR FEVER IS KEPT DOWN

Crates of Oranges Broken Open and Strawn Along Road for Soldiers Marching into Battle.

BY CAPT. HAROLD MILLS.

The American forces met their great test on the Chateau Thierry-Soissons line with a valiant success which must make every American heart swell with pride, and—so did the Salvation Army. I have just come from that sector. Everywhere I heard stories of the intrepid courage with which the "Amex" soldiers bore the brunt of the attack. Every where, also, I heard stories of the Salvation Army girls, their calm indifference to danger, their unending untiring work among the wounded. These stories came mostly from the soldiers themselves.

The call came suddenly. There had been an unusual amount of troop movement preceding the drive. Salvation Army huts and supplies were for the most part packed and ready for instant dispatch to any point where the troops might finally be stationed. Among men, and among officers of lesser grade, there was a feeling of uncertainty and much discussion as to where they would be sent, but there was always to be heard the hope that it would be to hold the German advance.

"If you go, we shall go also," said the girls. Then, one night, the division disappeared—vanished as though into thin air.

A few days later word came to B— that the — Division, together with other French and American forces, had smashed its way into the German lines and forced this enemy to retreat. At noon Capt. Violet McAllister and her sister, Alice, Adj. "Bill" Hale and Capt. Howard Margets took to the road in Staff Capt. Coe's Ford, others following as rapidly as possible in big supply trucks. All through the night and until half past 1 the following afternoon they traveled toward the scene of action. At sunrise the auto rolled over the brow of a hill and there, before them, lay a wide fertile valley carpeted with ripening grain and lush, green meadows. Three roads climbed gently along its slopes and over them moved all the varied transport of a battling army—ammunition trains, supply trucks, guns, wheeled cook stoves—from which appetizing aromas spread on the breeze—a calvacade of trench mortars hauled by Missouri mules, companies of marching men, all traveling toward the front.

At 2:30 p. m. the machine drew up at an improvised evacuation hospital in a small town from which the enemy had been driven only a few hours before. While the men were unloading a crate of lemons and a sack of sugar, the lassies reported to the doctor in charge and asked what they could do. Ambulances in an endless train were bringing in the wounded—American, French and German alike—and as rapidly as their wounds were cleansed and redressed they were loaded into other ambulances and shipped to the railhead, to be carried to base hospitals in splendidly equipped American hospital trains. Doctors, the men of the Hospital Corps, were all working against time to keep pace with the ambulances.

"For God's sake get them some thing cold to drink—something cold," snapped the doctor. So while the girls squeezed lemons into a bucket Billy Hale commandeered a gallon tank at the wheel of his Ford and went out to look for water. Some kilometers distant Hale found a spring as clear and cold as ice. Within less time than the tolling takes lemonade was ready to serve. Time after time he made the trip for water, heedless of the gunfire and of bombs dropped from enemy planes. Between times he loaded the Ford with food, which he carried to the trench and distributed among men actually engaged in fighting.

The trucks arrived shortly after ward, loaded with tons of oranges and lemons, the lemons being used in the hospitals while the oranges were piled up at points passed by troops just before going into action after a long march from the rear. The fruit was handed out by Salvation Army lassies and no gift could have been more appreciated. So great was the hurry of one company that they could not stop, and as a whole crate was flung at them as they passed. It was pounced upon with cheers.

When they had disposed of their loads the Salvation Army trucks were placed at the disposal of the Hospital Corps and for four long days and four sleepless nights these men drove continually between field dressing stations and the evacuation hospital. The lassies told of these trucks going, trip after trip, pale faces looking out over the dark boards, but always quick to smile in spite of pain.

## "MOST POPULAR ON THE FIELD"

RAYMOND FOSDICK PAYS GREAT TRIBUTE TO WORK OF SALVATION ARMY.

The Salvation Army, tells, in the following statement, how the overseas work actually began:

The men and women whom we first sent to the American camps in France found nothing prepared for them. They lived under the most primitive conditions, spending their every energy, many of them both by day and by night, to make lighter the soldiers' lot. In many instances our officers, both men and women, slept in the open fields, sometimes without even a blanket to cover them. In every case they shared the hardships of the soldier.

Doughnuts for Doughboys

"In these earliest days another innovation was introduced by these American women who knew not only the heart but the palate of the American boys," writes Commissioner Estill. "Over improvised, rough-and-ready stoves of brick or tin they fried doughnuts and eggs, and made cocoa and coffee, and in strange and wonderful ovens they baked apple pies." Just here began the period of the great popularity of the work of our women officers. I have learned that the fame of these little temporal ministers has spread along the entire American line, both at the front and in the training and rest camps. We purchased trucks and other equipment and supplies in Paris and London, and presently a dozen huts were in operation which were made "like home," so far as was possible. With "mother and sister" present by proxy in our women officers the boys developed a profound liking for our huts.

Give Without Payment

"It was our purpose to give without cost to the boys," declares Commissioner Estill, "but we soon found that the soldiers resented this as an implication of charity, and a nominal charge was made for all supplies. I impressed upon my officers from the first that they must not confine their work to the mere 'service of the tables' or the formal office or counter work, but must search out ways and means of carrying temporal cheer and spiritual comfort to the men in the trenches. They must not think of office hours or stated periods of service, but must be prepared to sacrifice at all points, in order to serve! These injunctions have been carried out, even at the cost of pain and suffering."

Most Popular Organization in France

"As time passed, the first little group of workers has been augmented, until we now have a strong force of officers and employees serving the American troops. Our own trucks, driven by our own men, are carrying supplies from our central supply stations in Paris and elsewhere to our huts, and, besides the vast quantities of material bought and shipped from the United States, our buyers have secured other greater quantities in France and England. With the financial incubus finally laid, the Salvation Army is in a position to develop its work with accelerating speed. Highest military officers are placing every possible facility in our way. Mr. Raymond Fosdick upon his return to Washington said, 'The Salvation Army is probably the most popular organization on the field.'"

HOT MEALS BETWEEN SHELLS.

(By Harold Miles)

Special correspondent at the front with the American Expeditionary Forces, Somewhere in France, Aug. 20.—"Hot Meals Between Shells" might have been the sign over the doorway of a certain Salvation Army hut in the Toul sector on at least one day of last week. A unit billeted in the village where this hut is located and returned early in the morning, dog-tired after a strenuous night, only to find that there was no breakfast in sight. They went to the Salvation Army hut to see if crackers and canned goods could be purchased, but when the girls, called from a nearby dugout, heard the soldiers' story they insisted upon preparing breakfast for officers and men.

The village had been under shell fire for over forty-eight hours and during the night there had been several casualties. Because of this the commanding officer was a little dubious about allowing the lassies to run any risk on behalf of his men. Mrs. Adjutant Hammond, who is in charge of the hut, met his objections by saying, "Why, that is alright, we can work between shells." "Shells were arriving with regularity at intervals of about twelve minutes or more, so Mrs. Hammond, assisted by Lieutenant Lulu Lawyer and Captain Ramsey, literally prepared a meal between shells for over a hundred men. Watching the clock and estimating carefully the period between shells they worked calmly until a minute or so before a shell was due when they would rush to their dugout and wait for the explosion. Then they would come out again and go calmly on with their cooking until the clock warned them that another shell was due.

## CALL MADE FOR LIQUIDATION OF W.S.S. PLEDGES THIS WEEK

Pledges for War Savings Stamps made by 1,107,336 Texans are due for payment before Oct. 31.

Pledges for November and December should, if possible, be paid during this eight-day period.

Every person in this county should make arrangements to completely liquidate his pledge during this week of Oct. 24-31, which has been officially designated as Pay W.S.S. Pledge Week.

War Savings Stamps equal to the present unliquidated portion of your pledge may be had at any bank, the postoffice or any sales agency.

Because of the immense amount of money needed now by the Government in connection with the vast military operations which are taking place, the War Savings Committee is calling for the complete liquidation of all War Savings Pledges.

To this end the eight-day period beginning Thursday, Oct. 24, and ending Thursday, Oct. 31, has been designated for the payment of the outstanding amounts of all pledges.

"There are some pledges or portions of pledges which call for liquidation in November and December, but in view of the extraordinary needs at this time every loyal pledger is most earnestly requested to make his payment during Pay W.S.S. Pledge Week, even though it may require close figuring and personal sacrifice upon the part of that patriotic person," Louis Lipsitz, State Director of War Savings, declares in the official announcement.

"Not only is it a solemn duty required of us for the Government, but at this time the complete payment of November and December pledges along with the portion due Oct. 31 will be of the utmost value to the Government in pushing to victorious conclusion the vast and vital operations on the fighting front."

"The full payment of the year's pledges may be just a bit hard to make on or before Oct. 31, but I know that the loyal Texas pledgers, thoroughly understanding what their action will achieve, will give full attention to the call and answer it as Texans have always answered their Government's requests."

## Promises vs. Money

The Government can't spend promises. Your W.S.S. Pledge is of no value unless it's paid.

The soldier can't fight with an empty gun and a broken bayonet. He will have to do without gun or bayonet as long as you put off paying that W.S.S. Pledge. The Government can't buy cartridges and bayonets with promises.

The Government needs fuel to use in the engines of the transports that take the fighters to France. The Government can't buy coal and oil with your pledge. It must have the money. Are you willing to tie up the transports in harbor by failing to pay that W.S.S. Pledge promptly?

Every day you delay liquidating your pledge you delay the coming of victory.

YOU PASSED YOUR WORD

"My word is as good as my bond!" Have you ever heard that said about you or some other person? It means a whole lot, doesn't it?

When you made your War Savings Stamp Pledge you passed your word and gave your bond to the Government. That pledge is due now. The Government is calling for its payment. You pledged the United States Government and you told President Wilson and Secretary McAdoo they could depend on you. Is your word as good as your bond? Prove it by liquidating that pledge speedily.

A man or woman is known by the alacrity and willingness with which he or she does what the Government asks.

Cotton is the principal crop, 18000 bales being raised; corn next, bushels, oats 60 bushels, wheat 20 bushels, with sorghum cane for feed. The county is very healthy, the air dry, good for pulmonary troubles. The fall is ample, average 28 inches, however, drouths cut crops short some years. Coal is mined at Lytle, two brick yards at D'Hanis furnish good red and yellow brick. Several mineral wells in the county. Oil and gas has been found yet in paying quantities. ## A TASTE OF HOME

(Editorial from Boston Transcript.)

In point of digestibility the American doughnut may not be the most recommendable article of food in the world. In times of piping peace, and especially when the doughnut is piping hot, it may have a tendency to lie long and ponderously on the stomach, but in time of war the soldier's digestion, like his spirit, is apt to imitate the action of the tiger—in other words, he can digest anything! Yet it is not on account of its digestibility, even to the soldier, that the American doughnut has made such a success as the type and expression of The Salvation Army's work in France. It is because the doughnut is about the homeliest article of food there is to the average American soldier. Served everywhere by the patient Salvationists, it is to the soldier redolent of the fireside and reminiscent of the dinner pail. It brings back neither herself, bending over the kettle in the kitchen; or it recalls the long dinner-hour in the little white schoolhouse when you swapped one of the two doughnuts from your pail (it was a sacrifice, they tasted so good after the long morning's grind) for one of Mary Jones' two rather skimpy pieces of dried apple pie. If the soldier has no such rustic memories, The Salvation Army lassies' doughnuts may be the high-piled city lunch-box with the light and roar of the old thoroughfare coming in through the open door. At all events, the doughnut goes infallibly with the soldier in every soldier's memory. It is a lump of home in a strange land. Therefore The Salvation Army does well to make and give out millions of American doughnuts. This helpful organization reaps a reward in the friendliness of the atmosphere that they create. A doughnut is cheery, personal, intimate, a letter of introduction need go before us at this moment. The letter of a young soldier now says that in Pemberton Square used to pause only to smile in scorn at The Army, but that in France, though he smiles still, is in quite another spirit. "My letter off to The Salvation Army now," says, "and I'm not the only one who feels that way either!" The Army are all ready to indorse the sentiment of the poet who celebrates General Booth's entry into Heaven. The Salvation Army has found its way to their hearts.

The American doughnut in France is also the type of proof of a better thing, and that is the fact that this war is rich in a sort of fullness that no previous war knew.
